DETAILED ACTION

The following is a response to the amendment received on August 16, 2004 which has been entered.

Response to Amendment

Claims 1-4 are pending in the application. Claim 5 has been cancelled.

-The objection to claim 3 has been withdrawn due to applicant amending the preamble to be consistent with the preamble of claim 1.

-The 112 2nd rejection of claims 1-5 has been withdrawn due to applicant amending claim 1 to correct the lack of antecedent basis of a limitation, amending claim 4 into an independent claim and canceling claim 5.

Allowable Subject Matter

Claims 1-4 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(As to claims 1 and 4) a method/apparatus for diagnosing a malfunction of a clutch with a transmission by generating a first signal indicating a motor vehicle standing still, generating a second signal indicating if a gear cannot be synchronized within a prescribed time interval, generating a third signal indicating if an engine is running and combining these signals into a logic-AND member which sets an error flag of a clutch malfunction if all of the signals are affirmative.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3681

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
